

# Energy Management Association of New Zealand

## Membership Benefits

Membership of EMANZ is open to anyone interested in Energy Management and the efficient use of energy. Here are some of the key benefits.

## Access to Networks - People and Information

- EMANZ is a collegial organisation whose members share their knowledge through technical sessions, and other events designed to create a culture of "cooperation" with the overarching objective of growing our sector. Joining EMANZ gives you the opportunity to access the people and the information needed to understand the market, form the relationships, and tap into the knowledge and information you need to succeed in this sector.

## Opportunities to Influence

- EMANZ maintains a regular dialogue with Government on a number of levels, and it maintains strong channels of communication with its members to ensure they are being represented on the issues as they see them. Joining the Association allows you to have a say in how EMANZ works with Government to achieve its goals.

## Training, Accreditation & Personal Development

- At EMANZ we run a number of events to ensure our members gain access to up-to-date knowledge and information. We offer discounts to members for these events and for our training courses. EMANZ oversees standards of competency in a range of Energy Management areas, to provide members the ability to achieve industry recognition for their competence.

## Positive Brand Focal Point

- Through its *EnergyMasters* accreditation, EMANZ gives confidence to purchasers of Energy Management services and employers of energy management professionals. Membership of the Association brings associated credibility and reputation benefits, as we operate under a Code of Ethics, and provide dispute resolution services should any of our members need them.
